## Our History. Your Foundation.

For over 30 years, ResinTech Flooring Services Ltd has specialised in delivering high-performance resin flooring systems for industrial and commercial environments throughout the UK.

As a family-run business, we understand the importance of reliability, safety and long-term customer relationships. Every flooring system we install is designed around durability, operational efficiency and minimal disruption to your business.

Over the years, we have successfully completed projects for manufacturers, warehouses, automotive facilities, food production environments and blue-chip organisations nationwide.

### Industries We Work With:

Automotive

Warehousing  
& Logistics

Food &  
Beverage

Pharmaceutical

Manufacturing

Commercial

# The Complete Flooring Solution

Industrial flooring plays a vital role in the performance, safety and efficiency of your business.

We identify the problems affecting your floors and design a flooring system that delivers a long-term solution within your budget and timescale.

Designed Around  
Your Needs

## Common Flooring Problems We Solve

### Chemical Damage

Spills and exposure can break down surfaces and create safety risks.

### Slip Hazards

Oil, grease and wet areas create dangerous working conditions.

### Cracked & Uneven Floors

Movement and impact can cause cracks, trip hazards and increased wear.

### Dust & Contamination

Worn or porous floors can generate dust and affect product quality.

### Heavy Wear & Impact

Forklifts, machinery and high traffic can damage untreated

### Hygiene & Compliance

Poor floors can harbour bacteria and fail to meet industry standards.

We design and install high performance resin flooring systems that solve these problems - safely, efficiently and on time.

# From Concept To Completion

Our proven process ensures a seamless experience from the initial survey through to project handover.

- **01 Site Survey**  
We assess your environment, identify issues and understand your operational requirements.
- **02 Specification & Design**  
We recommend the most suitable flooring system and provide detailed quotations and samples.
- **03 Surface Preparation**  
Using specialist equipment, we prepare the surface to achieve the perfect base.
- **04 Installation**  
Our skilled team installs the system efficiently with minimal disruption to your operations.
- **05 Quality Inspection**  
We carry out rigorous quality checks to ensure the system meets the highest standards.
- **06 Handover & Aftercare**  
We hand over the project on time, on budget, and provide ongoing support when you need it

## Minimal Disruption. Maximum Performance.

We plan every project around your operations to reduce downtime and keep your business moving.

**Fast Turnaround**  
Efficient project management to meet tight deadlines.

**Experienced Team**  
Highly trained and CSCS certified operatives.

**Health & Safety**  
Safety is at the core of everything we do.

**Quality Guaranteed**  
All systems installed to the highest industry standards.

## Our Flooring Systems

We offer a wide range of resin flooring solutions tailored to the demands of your environment.

### Industrial Resin Flooring

Durable, seamless and chemical resistant flooring for heavy duty environments.

### Self Levelling Flooring

Smooth, high performance finishes for a clean and professional look.

### Anti Slip Flooring

Textured systems designed to improve safety in wet and oily areas.

### Warehouse & Factory Flooring

High strength systems built to withstand traffic, impact and abrasion.

### Walls & Ceilings

Seamless, hygienic coatings to protect and enhance your environment.

## Why Choose ResinTech?

- ✓ Over 30 years of experience
- ✓ High performance systems
- ✓ Minimal downtime
- ✓ Safety & compliance focused
- ✓ Quality workmanship guaranteed
- ✓ Nationwide coverage

# Case Study

## University Labs

The university required a laboratory flooring system that met strict hygiene, safety and cleanliness standards.

### The Challenge

Complete floor preparation while keeping surrounding laboratory areas contamination free

Provide a seamless flooring system suitable for laboratory environments

Deliver a hard-wearing surface resistant to chemicals and daily use

### The Solution

Dust-controlled enclosed shot blasting

Joints, holes and cracks repaired with epoxy mortar

Two coats of epoxy primer applied

2.5mm self-smoothing epoxy resin finish installed

### The Results

- ✓ Seamless, dust-free finish
- ✓ Hygienic and easy to clean
- ✓ Chemical resistant surface
- ✓ Hard-wearing and durable
- ✓ Completed on schedule
- ✓ Laboratory facilities returned to operation with minimal disruption

# Case Study

## Toyota Deeside

Toyota Deeside required a high performance flooring solution that met strict operational and cleanliness standards.

### The Challenge

Prepare the floor keeping unaffected areas dust free

Provide a hard wearing surface that would not create any dust

Provide a minimum 5 year guarantee

### The Solution

Total dust free enclosed shot blasting

All joints, holes & cracks filled with epoxy mortar

Two coats epoxy primer to seal the floor

2.5mm self smoothing epoxy resin floor finish

### The Results

- ✓ Dust free and seamless finish
- ✓ Hard wearing and durable
- ✓ Hygienic and easy to clean
- ✓ Completed on time
- ✓ On budget
- ✓ Toyota were totally impressed with the complete solution
